Great Jewelry Place!!! ... We came to Town Jewelers to design my wedding band. It is beyond what I had imagined and they spent so much time with us to make sure it fit our needs and wants.

Came to them with a design for my engagement ring and they blew me away with the result! It came out better than I ever could've imagined and now I have a one of a kind ring that I'm absolutely in love with. You get to follow along with the whole process and are totally involved which is awesome. Everyone who works there is so nice and friendly.
