## TJS Custom Jewelry Design & Fabrication

*TJS custom designed pink tourmaline and diamond pendant  
necklace. This stunning piece of jewelry was hand carved in detail  
to draw your attention to the deep pink tourmaline center stone.  
The construction and quality makes this an everyday jewelry*

center piece. - Morgan

TJS custom designed intertwining diamond and sapphire wedding set. This was a challenging design as we were emulating the organic shape of tree branches, and matching a band to it while keeping everything balanced.

What a beautiful finished engagement ring and wedding band. This 3D designed modern Ring that incorporates generations of family diamonds in a modern intertwined infinity. - Morgan
